ABOUT

I am a web developer who recently graduated from Enspiral Dev Academy. I am passionate about using my skills to create solutions that are innovative and contributive to society.

From my studies, I have learned to build full stack projects using various technologies, planning and delivering them using Agile methodologies. I also developed strong communication and interpersonal skills, and can work both independently and in a team.

I am seeking a role with a forward-moving, ambitious, people-oriented company where I can contribute my abilities, collaborate and find personal growth in the technology industry.

PROJECTS

COVID-19 DATA NEW ZEALAND

Data visualiser for the COVID-19 pandemic in New Zealand.

Visit: covid19-data-nz.herokuapp.com
