INTRO

I am a web developer with a passion for building modern, innovative projects with a strong purpose, especially those that tackle big issues and strive to improve society. I love applying my problem solving skills and creativity to create products that not only deliver on its promises, but are also user friendly and aesthetically exciting.

I am technically confident and a fast learner with a hard work ethic. I love to collaborate with others, as I am adaptive to different environments and values, and take pride in empowering individuals and teams toward success.
